All cars include 1" Scale Railroad Supply operative couplers and draft gear.

Craftsman Kit: Car comes primed, you are responsible for final paint and lettering. No decals included. Kit will require drilling, tapping, filing, and assembly of some detail parts. See separate information sheet for specifics.

Beginner 'E-Z' kit: Car comes painted and lettered with graphics of your choice, one color herald and one color paint scheme. 2-color cars and/or multi-color heralds (with the exception of refrigerated and stock cars, where the cost has already been factored into the price.) are available - add \$70 for 2-color paint job, add \$30 for multi-color heralds. No tapping required, no assembly of detail parts required, drilling is required.

* SC0100 Beginner kit comes assembled and primed; Craftsman Kit come unprimed, and requires assembly by the builder. Decals not included with either.

TERMS

Prices subject to change without notice.

Kit prices do not include shipping. Shipping and handling charges are listed separately for each item.

Shipping charges for Fully Assembled Ready-to-Run equipment will be quoted on receipt of order.
